REGION 2

2890 WOODBRIDGE AVENUE

EDISON, NEW JERSEY 08837-3679

AUG 14 2009

John Larocca
Assistant Treasurer for Arsynco, Inc.
c/o Aceto Corporation
One Hollow Lane, Suite 201
Lake Success, New York 11042

Dear Mr. Larocca:

This is in response to the electronic mail from JMC Environmental requesting an extension of the due date for submittal to EPA of your Engineering and Monitoring Plan. The Engineering and Monitoring Plan is a requirement of the risk-based disposal agreement for PCB remediation waste at the Arsynco site in Carlstadt, New Jersey, which was accepted and received by EPA on July 21, 2009. The original due date for this plan would have been August 20, 2009.

EPA approves your request for an extension until September 30, 2009 for submittal of the Engineering and Monitoring Plan for the risk-based disposal of polychlorinated biphenyl (PCB) remediation waste at the Arsynco, Inc. site located in Carlstadt, New Jersey.

Documentation of financial surety is another requirement of the risk-based disposal agreement. While the agreement stipulates that this shall be provided to EPA, Region 2, not less than 30 calendar days prior to any work commencing at the site, we would like to encourage the submittal of this information as soon as possible.

Please contact Vickie Pane of my staff if you have any questions or require additional information. She can be reached at (732) 321-6798.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Ken Stoller".

Kenneth S. Stoller, P.E., QEP, DEE
Chief,
Pesticides and Toxic Substances Branch
